You shouldn't have to take your biller's word for anything.

HRI runs behavioral-health revenue cycles for detox, RTC, PHP and IOP programs, in full or shared with your team on a written split of who owns what. Behavioral health is all we do.

FULL-SERVICE BILLING

We run your billing from verification through appeals: eligibility, authorizations, claim prep, submission, corrections, payer follow-up, posting, and first-level appeals where the record supports them.

HYBRID

Your team keeps the parts it does well and we take the rest. Who owns each step is written down before we start, so nothing gets done twice and nothing gets missed.

EVERY FRIDAY, EVERY CLAIM, IN WRITING

Status, age, payer response, blocker, owner, deadline, next action. Every invoice comes with a reconciliation tying payer payments to your deposits, so you can check our fee against the money that landed.

PRICING, PUBLISHED

A monthly minimum set from your program, or, where we run the billing, a percentage of what we collect, whichever is greater, never both. No setup fee when your operation is ready as it stands.

NOTHING STARTS ON A HANDSHAKE

The quote is built from your numbers and printed before work begins. One signing package; a written notice marks the day live billing starts.

FAIR ON THE WAY OUT

Early in live billing, a performance gate: if we materially miss our own standards, you can leave with no early-exit fee. Any exit ends with a closing report of every claim in flight.

PATIENT DATA, PROTECTED

No PHI to start. Protected information moves only under a Business Associate Agreement, with named accounts, MFA, and encryption.

Also on their own: recovery projects on aged A/R · credentialing, licensing and accreditation support · complete billing build-outs for new programs.

**Start with the free billing review.
Findings on a date we set with you.**

Chris or Pete gets back to you as quickly as possible.

Final pricing is individualized on each quote and confirmed in the signed service order. Payer coverage, allowed amounts, adjudication, payment timing, and revenue lift are never guaranteed. Coding and reimbursement outcomes vary by payer, plan, state, contract, and date of service. Health Revenue Intelligence, LLC · September 2026.
